

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office AUG 23 1966
 Returned to applicant for correction NOV 1 1966
 Corrected application filed NOV 9 1966
 Map filed NOV 23 1966

The applicant Land Corporation of Nevada
 of Reno, County of Washoe,
 State of Nevada, hereby make application for permission to appropriate the public
 waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
 tion; if a copartnership or association, give names of members.) Incorporated in Nevada on May 6,
1960.

1. The source of the proposed appropriation is underground
Name of stream, lake or other source.
2. The amount of water applied for is $\frac{1}{4}$ c.f.s. second-feet
One second-foot equals 448.83 gals. per min.
 (a) If stored in reservoir give number of acre-feet acre-feet
3. The water to be used for Municipal purposes
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated)
 - (b) Stockwater (state number and kinds of animals to be watered)
 - (c) Other use (describe fully under "No. 11. Remarks") See remarks
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 21,
T19N, R20E, MDB&M at a point from which the W $\frac{1}{4}$ corner of said Section
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
21 bears S.16°48'50" W. 739.6 feet.
it should be stated.
6. Place of use: The S $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 20, T19N, R20E, MDB&M and that
Describe by legal subdivision, if on unsurveyed land it should be so stated.
portion of the NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 20, T19N, R20E, MDB&M which lies
easterly of the westerly right of way line of Boynton Lane.
7. Use will begin about January 1st and end about December 31st, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
 specifications of your diversion or storage works.) See attached plans

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....

See attached cost estimate

10. Estimated time required to construct works.....

see remarks

11. Remarks Applicant has previously been granted Permit No. 18557, which allowed applicant to appropriate 6 c.f.s. from the source described in item I for use on Sections 21, 22, and 27T, 19N, R20E, MDB&M. Applicant thereafter obtained a certificate of public convenience and necessity from the Public Service Commission of Nevada to operate a water service company in the same area. Applicant is now in the process of applying to the Public Service Commission of Nevada for an extension of its water service area. The extension consists of the land described in item 6. The principal user of water in the extension area will be a maintenance complex operated by the Washoe County Engineering Department. As soon as permission is received from the Public Service Comm. bids will be advertised for the construction of the water distribution facilities. The estimated time for actual construction is 30 days.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening and an air line for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second.

Actual construction work shall begin on or before December 23, 1967.

Proof of commencement of work shall be filed before January 23, 1968.

Work must be prosecuted with reasonable diligence and be completed on or before December 23, 1968.

Proof of completion of work shall be filed before January 23, 1969.

Application of water to beneficial use shall be made on or before December 23, 1973.

Proof of the application of water to beneficial use shall be filed on or before January 23, 1974.

Map in support of proof of beneficial use shall be filed on or before _____.

Commencement of work filed JAN 2 1968

Completion of work filed FEB 12, 1969
